

Congrats, you just bought yourself one hell of a bike. The NBZ is a half pound lighter than our standard Nature Boy frame, and comes with a super stiff PressFit 30 bottom bracket to make sure that none of your efforts are wasted.

The Nature Boy was named after a Minnesota professional wrestling legend and carries all of the All-City hallmarks: straight blade fork, classic paint, custom dropouts and a signature headbadge. It was designed primarily as a race rig, but since we knew that many of you out there would be using it for every day life, we built in additional features to make it more versatile.

You'll find hidden fender mounts, two sets of bottle bosses (reinforced of course), removable canti studs, fat tire clearance, and a steel fork that is easily swapped for a carbon model should you want to lighten up for race season.

Cross Frame Specification

Tubing	Columbus Zona down, seat and toptubes. 612 Select externally-tapered, ovalized and dimpled chainstays, tapered seatstays. TIG welded
Fork	612 Select CroMoly double-buttet tapered fork blades, lugged crown and matching dropout
Dropouts	All-City Hennepin Bridge dropouts, with built in tensioner bolts. The bolts are a standard M4 bolt, and we recommend that if you're running the rear wheel fully forward in the dropout that you either take the bolts out or replace them with a shorter version (prevent bending). We also recommend that you grease those things. Rear spacing is 130mm
Braze-ons	Waterbottle mounts on seat tube and downtube with reinforcement plates (nice touch, eh)
Seatpost diameter	27.2mm
Headset	1-1/8" threadless
Bottom bracket shell	PressFit 30
Brake mounts	Standard cantilever
Tire clearance	700c x 38mm

Assumption of Risk

Federal, State and local laws vary and may require certain equipment, including brakes. Buyer assumes all risks of assembling a bike that is not equipped with all required safety components. Buyer assumes all risks inherent in riding a bicycle without all required safety equipment on a public or private street or pathway.

Serial Number

Dude, write it down now! Seriously. It's important if your bike is stolen or for questions about your frame. The number is stamped into the bottom of the bottom bracket shell.
