

Thanks for buying the Airwolf frame, we appreciate your support.

The Airwolf features a full 4130 CroMoly steel frame, butted main tubes, an internal 45/45° headset, 14mm dropouts and a Mid bottom bracket. It is designed around the 26" wheel size and was made for getting rad. Real rad.

When you get it built up, feel free to send over some pics for the blog.

Cheers,

All-City

Write it down now! Seriously. It's important if your bike is stolen or for questions about your frame. The number is stamped into the bottom of the bottom bracket shell.
