

So you bought a Def Wish, thanks a mint—we appreciate your support.

The Def Wish is the next step in the continued evolution of modern fixed-gear urban bikes. It furthers what the original Dropout started with more tire clearance, larger frame tubes, a Mid bottom bracket, 14mm dropouts and redesigned frame details. This bike has truly evolved into the ultimate platform for urban exploration and domination.

It's ideal for fixed-gear freestyle, bike polo, trail riding, aimless wandering, errands or whatever else it is that you do on your bike. Ride it fixed, singlespeed or coaster brake. The Def Wish is the new standard in monster fixed bikes.

When you get it built up, feel free to send over some pics for our blog.

Cheers,

All-City

Fixed Freestyle Frame Specification

Tubing	100% full 4130 CroMoly steel. Double-buttet down, top and seat tubes. Top and down tube gussets at the head tube

Bike Setup

*** This bike should be assembled by a professional bicycle mechanic ***

We recommend that the seat tube be lightly flex-honed by a professional mechanic and that all bolts are checked for evidence of grease, including the chain tensioners and seat binder bolt.

The chain comes uninstalled, because everyone has their own preferences when it comes to gearing. Leaving the chain long and uninstalled gives you or the shop room to play with and adapt the bike for your hometown terrain without buying a new chain.

Brakes: If a freewheel is installed on this track frame, we recommend that you install front and rear brakes. There are no rear brake cable stops, so use zip ties or a product like the Problem Solvers™ Backstop.

Assumption of Risk: Federal, State and local laws vary and may require certain equipment, including brakes. Buyer assumes all risks of assembling a bike that is not equipped with all required safety components. Buyer assumes all risks inherent in riding a bicycle without all required safety equipment on a public or private street or pathway.

This bike also comes with a chainguard, reflector kit and everything else needed to make it fully compliant with all CPSC requirements.

Serial Number

Write it down now! Seriously. It's important if your bike is stolen or for questions about your frame. The number is stamped into the bottom of the bottom bracket shell.
