

Hey, thanks for supporting All-City and buying our stuff. We really appreciate it, and hope that you get years of use and enjoyment from your purchase. If there's ever anything we can do for you, let us know. Cheers.

⚠ WARNING: CYCLING CAN BE DANGEROUS. BICYCLE PRODUCTS SHOULD BE INSTALLED AND SERVICED BY A PROFESSIONAL MECHANIC. NEVER MODIFY YOUR BICYCLE OR ACCESSORIES. READ AND FOLLOW ALL PRODUCT INSTRUCTIONS AND WARNINGS INCLUDING INFORMATION ON THE MANUFACTURER'S WEBSITE. INSPECT YOUR BICYCLE BEFORE EVERY RIDE. ALWAYS WEAR A HELMET. Additional Product and Safety Information can be found at the website: www.allcitycycles.com/safety.

Compatibility

All-City Saddles are compatible with seatposts that accept 7mm saddle rail diameter.

Required Tools

4, 5, and 6mm Allen wrenches
Torque wrench that measures in Newton meters

Single-Bolt Seatposts:

Install your seat on a single-bolt seatpost by loosening the "sandwich" bolt at the top of the post most of the way. The diameter of the saddle rails must match the diameter of the grooves in the clamp. Then turn the top half of the clamp 90° (figure 1) and fit the saddle onto the rails (figure 2). Turn the top clamp back into position and tighten the bolt just enough to hold the saddle in place in a level to the ground position for starters (figure 3).

Tighten the seatpost bolt clamp on the frame to secure the seat in place before you decide what adjustments will need to be made.

NOTE: After making the necessary saddle adjustments, tighten the saddle rail clamp bolt(s) to the seatpost manufacturer's recommended torque.

Two-Bolt Seatposts:

Installation of the saddle in this seatpost may require you to completely undo one clamp (figure 4). Fit the saddle onto the grooves and reinsert the bolt that you had to undo (figure 5). The diameter of the saddle rails must match the diameter of the grooves in the clamp. Lightly tighten both bolts until they hold the saddle in place.

Tighten the seatpost bolt clamp on the frame to secure the seat in place before you decide what adjustments will need to be made.

NOTE: After making the necessary saddle adjustments, tighten the saddle rail clamp bolt(s) to the seatpost manufacturer's recommended torque.

Limited Warranty

This All-City® product is warranted against defects in materials and workmanship for three years from the date of retail purchase of the product, subject to the limitations detailed below. Save your dated receipt for proof of purchase.

This warranty does NOT cover the following:

- Damage due to improper assembly or follow-up maintenance or lack of skill, competence or experience of the user or assembler
- Products that have been modified, neglected, used in competition or for commercial purposes, misused or abused, involved in accidents or anything other than normal use
- Installation of components, parts or accessories not originally intended for or compatible with All-City products
- Damage or deterioration to the paint, surface finish, aesthetics or appearance of the product
- Normal wear and tear
- Labor required to remove and/or refit and re-adjust the product within the bicycle assembly

This limited warranty is expressly limited to the repair or replacement of a defective product, at the option of All-City Cycles, and is the sole remedy of the warranty. This limited warranty applies only to the original purchaser of the All-City product and is not transferrable. This warranty applies only to products purchased through an authorized dealer or distributor. In no event shall All-City Cycles be liable for any loss, inconvenience or damage, whether direct, incidental, consequential, or otherwise resulting from breach of any express or implied warranty or condition, of merchantability, fitness for a particular purpose, or otherwise with respect to our products except as set forth herein. This limited warranty gives the consumer specific legal rights, and those rights and other rights may vary from place to place. This limited warranty does not affect your statutory rights.
